

My journey through King Tutankhamun's tomb.

Imagine you have just discovered an unopened tomb. Use directional language and adverbs to describe how you moved through the tomb. Did you race through it quickly because you were afraid or take your time and move slowly, noticing everything around you. What did you see, hear and feel? How did you escape? Add as much detail as possible. Why don't you take a virtual tour of the tomb before you start writing by following this link:

<https://sites.google.com/site/ancientegyptiantour/virtual-tour-of-ancient-tombs>

We can't wait to read about your experience so don't forget to let Miss Boyd or Mr Bleakley know how you got on via email or on SeeSaw. Have fun!
