

Wednesday 27th May

In Chapter 15 we hear that Charlotte is getting ready to lay eggs. Eggs are the first stage of a spider's lifecycle. Can you design a diagram to explain the lifecycle of a spider? You can use the templates to help you. You can print these templates out or you can draw your own. When you've sorted the pictures please do the following:

- Slytherin- Label the pictures using the following words: adult spider, egg, spiderlings and egg sac. Make sure you put them with the correct picture.
- Gryffindor, Hufflepuff and Ravenclaw- write a sentence about each stage of the lifecycle. Number the sentences and write them below your diagram.

As we continue to listen and read Charlotte's web we'll find out even more about the spider's lifecycle.
