

A special friendship

In Chapter 14 Fern's mum is worried about Fern's friendship with Wilbur and talks to Dr Dorian about her concerns. Think about a special friendship you have in your life. Use these headings to reflect on how important that person is to you. Then, why not send them a message or make them a card and post it just to let them know you're thinking of them.

Friend's name:	
When did you meet?	
How long have you known them?	
What things do you and your friends have in common?	
What interests do you have that are different?	
What does your friendship with this person mean to you?
