

How did the Sphinx lose its nose?

There are lots of conspiracy theories out there which guess at how the Sphinx lost its nose. This week's writing task is to write a paragraph (or more if you like) explaining how you think the Sphinx lost its nose. Was it aliens, tomb raiders, a sand storm or something else? You can be as creative as you wish. If you like, you could research some of the theories online too and see which one you think is the most likely. Don't forget you can share your theories with your teachers by sending us a message on SeeSaw or by emailing Miss Boyd (eboyd460@c2kni.net) or Mr Bleakley (jbleakley288@c2kni.net). We're looking forward to finding out your thoughts about this ancient mystery.
