

Pentominoes Game Activity

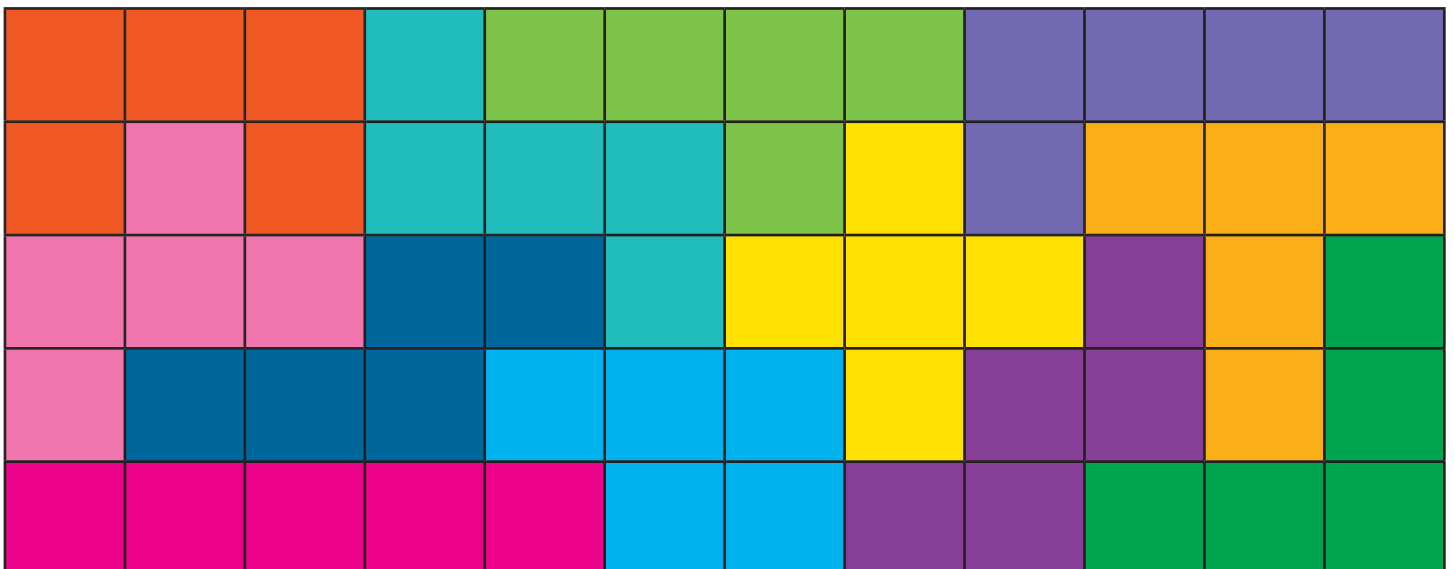

How to play

A pentomino is made up of five equal squares joined together along a whole straight edge. Each pentomino can be fitted together to make one big shape like the pattern below. There are 12 different shapes – can you see them all?

Carefully cut out the shapes in the pattern then re-assemble them on the blank grid. It's harder than it looks!

Pentominoes Game Activity

How to play

A pentomino is made up of five equal squares joined together along a whole straight edge, as shown at the bottom of the page.

There are 12 different ways to make a pentomino shape.

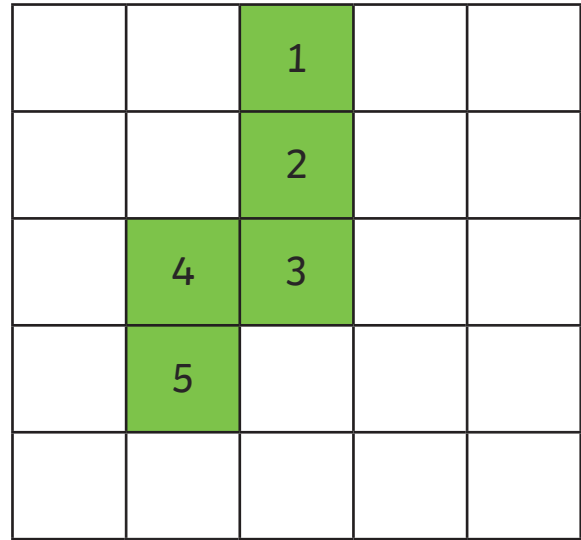

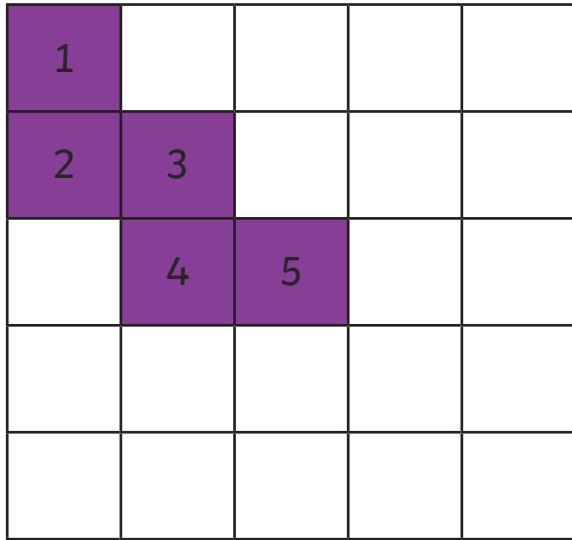

Once you have carefully cut out all 12 shapes, try to fit them on the 10×6 grid so that no shape overlaps another one and there are no gaps in the grid. Good luck!

Pentominoes Game Activity

How to play

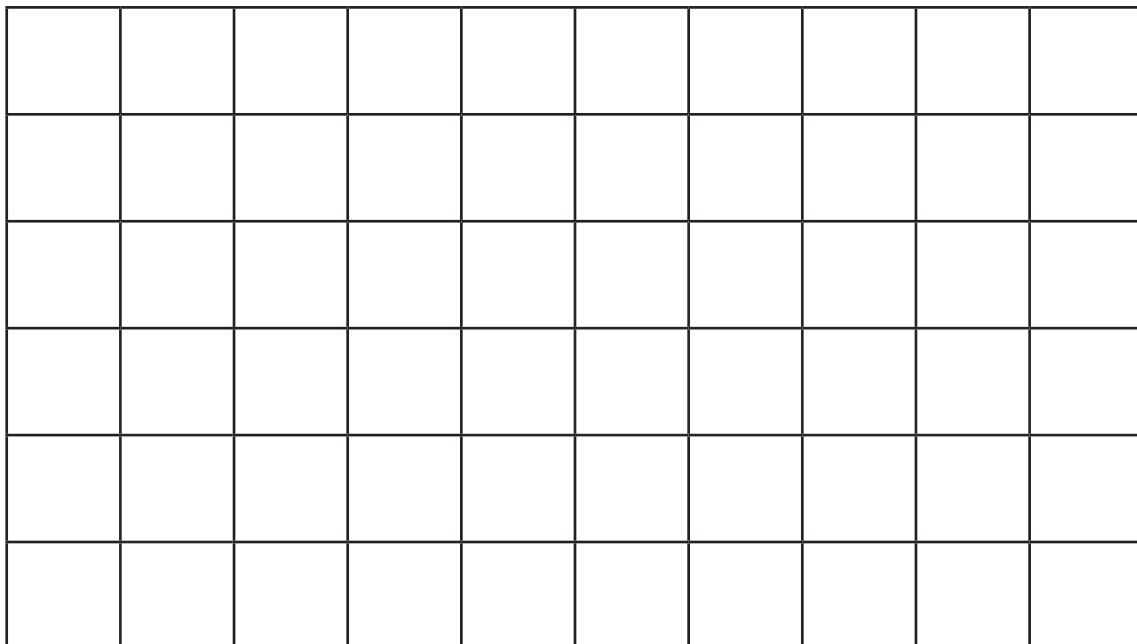

A pentomino is made up of five equal squares joined together along a whole straight edge like this.

There are 12 different ways to make a pentomino shape.

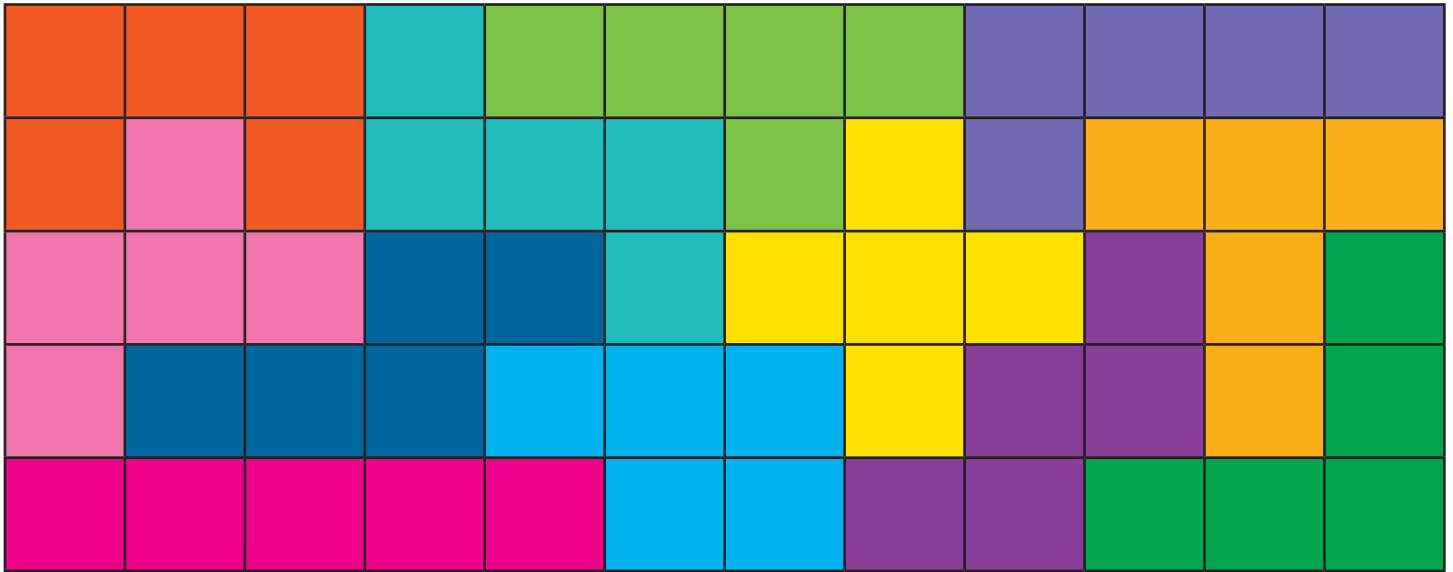

Making your own

Use the small grids to make your own pentominoes. Once you have all 12 shapes, cut them out and try to fit them on the 10×6 grid so that no shape overlaps another one and there are no gaps in the grid. Good luck!
