Monster Mix-Up

Read the research notes about a group of monsters. It has all been mixed up!

Your task is to find a way to organise the information, fill in the table, draw and colour a picture of each of the four monsters. Good luck!

Maddeemots have green fur with pink dots.

Lollylums have three, square-shaped heads and a rectangular body.

Green and pink monsters have a forked tail.

Fenorforks have five legs.

Sillosims are purple.

Fenorforks have two arms and two fork-shaped fingers on each hand.

Maddeemots have one eye in the middle of their face, no nose and sharp teeth.

Lollylums have two, spikey arms.

Purple monsters have no arms but eight tentacles, like an octopus.

Lollylums have one long, slimy foot, like a snail.

Maddeemots have two legs, four arms and sharp claws.

Fenorforks have a bright blue, fluffy body and a bright yellow, fluffy head.

Sillosims have two antennae on top of their triangular head.

Sillosims have round bodies.

One-eyed monsters have star-shaped heads and round bodies.

Fenorforks have two noses, three eyes and one tooth.

Three-headed monsters are rainbow coloured.

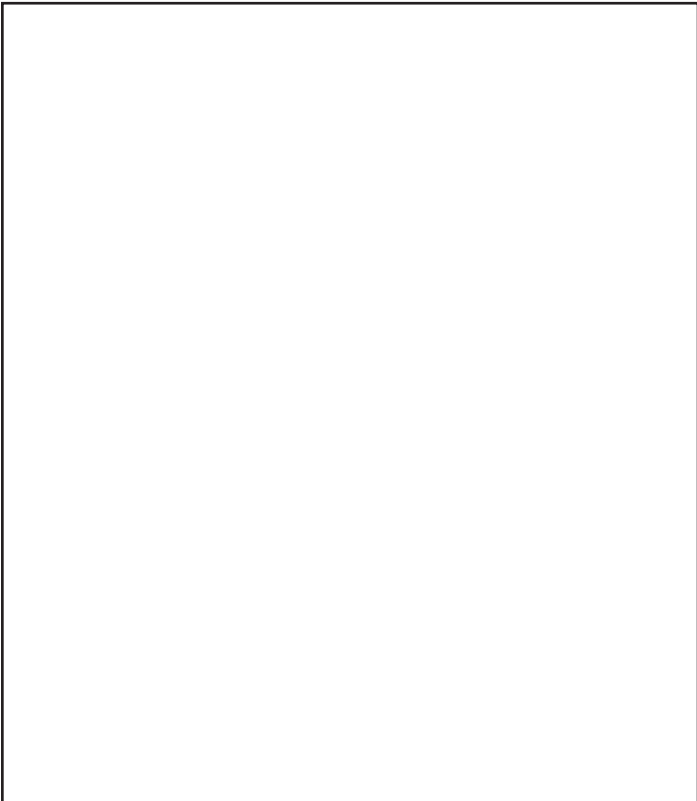

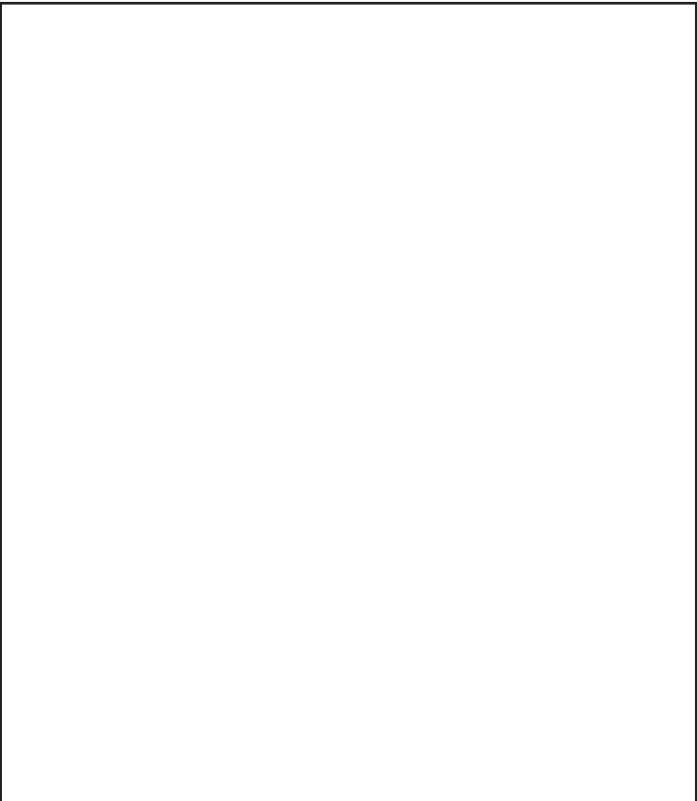

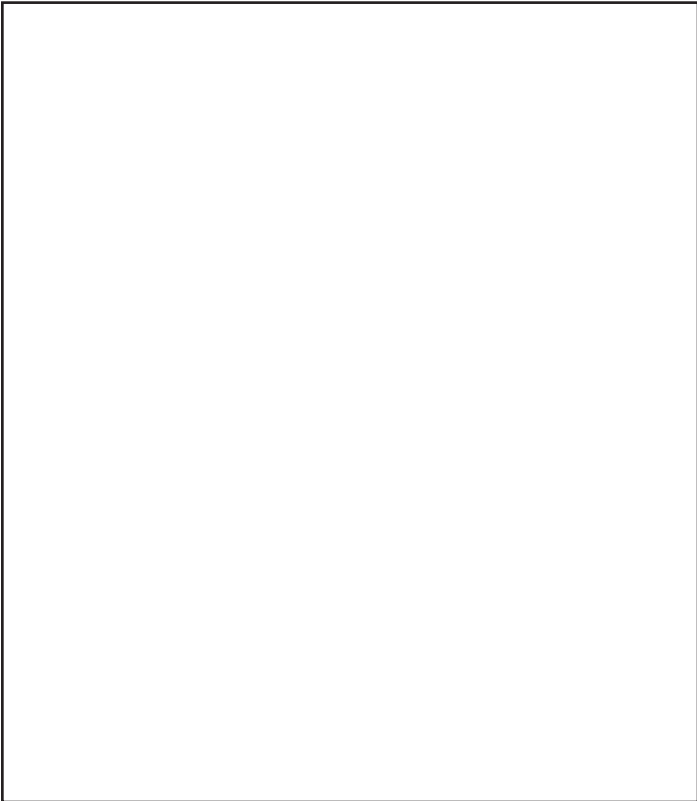

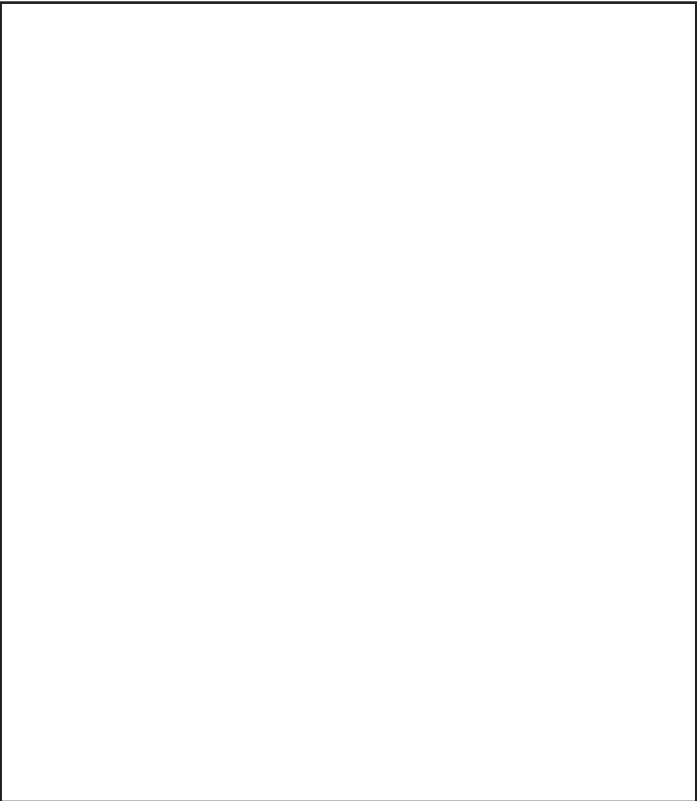

Sillosims have feathery wings.

Lollylums have many eyes but no other facial features.

Winged monsters have two green eyes, a nose and a mouth like a button.
