tomato		apple
lemon		banana

	Molly	
banana		tomato
apple		orange
melon		lemon

	Annie	
banana		apple
tomato		lemon
orange		melon

Carroll Diagram – Sorting using two criteria

Choose 2 fruits and use them to sort the people into the Carroll diagram

This is a data handling resource focusing on Carroll diagrams. The children need to choose 2 fruit from the table of likes and dislikes and then add these to the Carroll diagram. They then highlight the chosen fruit for each person and select where on the diagram they should go. They will cut out the picture of each person and stick it in the appropriate place on the diagram.
