

KS2 Problem of the Day

Thursday 8th March 2018

- 1 A barrel contains 13 l 280 ml of water.

The water is shared equally between 5 buckets.

How much water is in each bucket?

2 l 656 ml

- 2 A piece of ribbon is 5 metres long.

Gina and Liam each use part of the ribbon to wrap a present.

- Gina uses 1.6 metres
- Liam uses 256 cm

The remaining ribbon is cut into 7 pieces of equal length.

How long is each piece of ribbon?

12 cm
