

Egyptian Jewellery- make your own ideas.

This week you could have a go at making some Egyptian jewellery.

Why not try using a paper plate to create a necklace like this?

You could paint or use felt tips to colour some pasta to stick on to the paper plate.

Use a toilet roll tube or a kitchen roll tube to make a bangle or bracelet that looks a little bit like this one.

Or maybe you could use a strip of cardboard from an empty cereal packet or a piece of paper to make a head band.

Don't forget to send your teachers your work on Seesaw, we can't wait to see your creativity.
