

The Titanic Timeline

1908-1909

Work begins on White Star Liner's newest steam ship, Titanic. It will be the largest steam ship ever made, and is built in Belfast, Ireland.

April 10th

Passengers arrive in Southampton excited to board the ship. The ship sets off on her maiden voyage at midday.

April 1912

April 12th- 13th

The Titanic sails through calm waters towards New York. It carries 2,223 people on board.

11:50pm

Water has poured in and risen extremely quickly in the front part of the ship.

April 14th

11:40pm

The lookouts see an iceberg dead ahead. The Titanic tries to steer round it and is hit on the right hand side.

April 15th

12:00am

The captain is told the ship can only stay afloat for a couple of hours. He gives the order to call for help over the radio.

12:05am

The lifeboats are uncovered and passengers and crew get ready on deck. There is only room for half of the people on board in the lifeboats.

2:05am

The last lifeboat is lowered in to the water. Over 1,500 people remain stranded on the ship. Titanic's deck becomes steeper and the rear of the ship breaks off.

8:50am

The Carpathia finally travels away from any remaining wreckage and makes its way to New York. She has managed to save only 705 passengers and crew. Most of them are unable to be saved.
