Thrust Investigation - A Fair Test

Our question for our investigation is:			
Things we need:		My prediction (what I think will happen):	
This is how we made our test fair:			
Method (what we did):			
Our results:	Time taken to explode:		
Test number	Water from fridge	Water at room temperature	Water from hot tap
1			
2			
3			
Average time:			
Our conclusion (answer the question for investigation and explain why):
