

Celebrating the NHS kiwis and Oranges answers

1. 1.5 million
2. In the whole world
3. Aneurin Bevan founded the NHS so that everyone could have free medical health treatment and advice, to treat people equally.
4. Doctors, cleaners and other healthcare workers have risked their own lives to care for other people.
5. converted
Coronavirus
6. Write your own ideas.
7. Your own answers but could be about the fact that people wanted to show support for the NHS service and admired Tom Moore's efforts, giving money was a way to contribute
8. This is my choice but you may have another section that you chose (there is no wrong answer here)

Why Is Our NHS Special?

The NHS was designed so that every person who lived in the United Kingdom could receive free medical help, treatment and advice. However, running the NHS is expensive so every working adult pays **taxes** which fund the NHS and pay wages to NHS staff.

Many people consider themselves lucky to have the NHS in the UK. In some parts of the world, people without **health insurance** or who can't afford treatment would not be able to receive medical care. There are also places where the care that you receive when you are ill will be of a lesser quality if you have less money.

I think that this section is the most important because it gives us the reason behind the NHS and the reason why it continues to be of importance in all of our lives.
