

CRAFT Challenge

TIN TELEPHONES

YOU NEED TWO EMPTY TIN CANS - CLEAN AND WITHOUT SHARP EDGES. PUNCH OR DRILL A HOLE IN THE CENTRE OF EACH TIN - A NAIL WAS USED IN WARTIME.

THEN FIX A STRING OR THICK THREAD BETWEEN EACH TIN BY KNOTTING THE STRING INSIDE THE TIN SO THAT IT IS NOT PULLED OUT.

PULL THE STRING TIGHT BETWEEN YOU BOTH. ONE PERSON PUTS THE TIN TO THEIR EAR WHILE THE OTHER SPEAKS INTO THEIR TIN - JUST LIKE THESE CHILDREN. EVEN A WHISPER WILL TRAVEL A LONG WAY IF IT IS KEPT TIGHT.
