

26 Falling Snowflakes

These pretty decorations are easy to make.

You will need:

- * Square sheets of white paper
- * Scissors
- * Pencil
- * White thread
- * Sticky tape

Every snowflake that falls is unique, which means they all look completely different!

- 1 Fold a sheet of paper in half, then in half again to make a smaller square.
- 2 On the open side, cut a curve from one corner to the other so that, if you opened the paper out, you would have a rough circle.
- 3 Keeping the paper folded, draw some random shapes on one side, then cut them out.
- 4 Unfold the paper to reveal your pretty snowflake.
- 5 Tape a piece of white thread to the top of your snowflake and hang them around the room or on your Christmas tree.
