

Mansion Area

Your challenge today is to design your dream house. You might want to include a swimming pool, a cinema, a bowling alley, a gaming cave or a bakery. On the square cm^2 grid below, design a bird's eye view of what the house might look like. Remember to include corridors to connect the different rooms. Then write the area of each room, such as a bowling alley with an area of 8cm^2 on the plan. Good luck, and don't forget to colour your rooms different colours and share your ideas with Mr Bleakley and Miss Boyd through SeeSaw.
