

Farmer Giles Fields

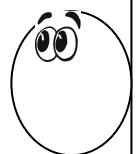

Objective: Can I work out the perimeters of rectangles?

Farmer Giles has a problem. He needs to work out how much fencing he needs to buy for his fields so his sheep don't escape. Can you help him? **Remember to write down the measurement of every side, you need to find the missing sides first. To calculate the perimeter, simply add all sides together!**

Evaluation

Did you feel happy doing this work?

Do you feel confident with doing perimeter?
