

Remember our star word- Doubling??

Doubling is when you have a number of things and then you get exactly the same number again!

So here are 6 butterflies

Now I will double them

How many butterflies do I have? I have 12. So.....

Remember we say....Double 6 is equal to 12

You try these.

Draw 3 flowers. Now draw 3 more flowers.

How many flowers now?

Say "Double 3 is equal to ____"

Draw 5 spiders. Now draw 5 more spiders.

How many spiders now?

Say..... "Double 5 is equal to ____"

Can you make up one of your own now?
