

A pictogram of planets people want to visit

 Mercury	 
 Venus	
 Earth	
 Mars	  
 Jupiter	
 Saturn	  
 Uranus	 
 Neptune	

Each  represents 10 people.

Can you answer the questions remembering that each stands for 10 people?

1. How many people want to travel to Mercury?
2. How many people want to travel to Mars and Mercury?
3. Which planet is the least popular?
4. How many people want to go to Venus and Saturn?
5. What is the difference between Mercury and Neptune? (*answer = larger number subtract smaller number*)
