

WALT: use our number bonds to solve addition and subtraction problems.

Look at each sum. What other sum can it help you work out e.g.

If I know.... $6+3=9$

Then I know.... $16+3=19$

Then I know.... $26+3=29$

Can you answer the sum? On the blue line, make another sum using what you know.

$$16 + 3 = 19$$

$$36+3=39$$

$$23 + 3 =$$

$$47 + 2 =$$

$$28 + 1 =$$

$$64 + 4 =$$

$$32 + 3 =$$

$$44 + 2 =$$

LO: I can add a single-digit number to a two-digit number using the number facts I know to help me
