

If I know... $2 + 3 = \square$ 5 • • • • •	Then I know... $20 + 30 = \square$ 50
If I know... $4 + \square = 7$ 7 • • •	Then I know... $40 + \square = 70$ 70
If I know... $\square = 5 + 3$ • • • • • •	Then I know... $\square = 50 + 30$ 50
If I know... $7 - 2 = \square$ 7 • •	Then I know... $70 - 20 = \square$ 70
If I know... $9 - \square = 6$ 9 • • • • • •	Then I know... $90 - \square = 60$ 90
If I know... $6 = \square - 2$ 6 • •	Then I know... $60 = \square - 20$ 60
