

A money making task!

Triangles you should be able to make this yourselves.

We would love some photos!

1. Find a baking tray or an egg box and write amounts up to 50p on a piece of paper – look at the picture below to help you.
2. Then ask someone for lots of coins and fill each pot with the correct amount – if you don't have coins just make your own by drawing circles on a page and writing the coin value in it.
