Understanding how to use a.m. and p.m. accurately

1 day = 24 hours

Develop Learning

Understanding how long a second is

How many 'elephants' can you say in:

- 5 seconds?
- 10 seconds?
- 20 seconds?
- 30 seconds?

Take it in turns with your partner to measure. Speak at a sensible and regular speed. Use the stopwatch accurately!

Talk Task

a.m. or p.m.?

Look at each time and the picture that goes with it. Make the time on your clock and use the picture to decide what time of the day it is and whether the time is a.m. or p.m. Correctly write a.m. or p.m. next to each time.

seven minutes past three	twenty minutes to eleven	quarter to one
twelve o'clock	twenty five minutes past two	seven minutes past nine

Do Now

Estimating and measuring the length of a short activity in seconds only

- 1) I think it will take me 30 seconds to write my full name three times.
- 2) Are you ready? I am starting the stopwatch in 3, 2, 1, go!
- 3) It has taken you 42 seconds to write your name three times.
- 4) It took me longer than I estimated to write my name three times.
