

Centimetres

Here are some lines which are about one centimetre long.

Not very long for such a long word!! Try and draw some lines more than and less than one centimetre.

Draw 5 lines, each **less than** one centimetre long.

Draw 5 lines, each **more than** one centimetre long.

Centimetres

Here are some lines.

Guess how long each line is in centimetres.

a.

centimetres

b.

centimetres

c.

centimetres

d.

centimetres

e.

centimetres

f.

centimetres

g.

centimetres

Here are some pairs of lines.

Guess the length of each of the **longer** lines.

a.

or

centimetres

b.

or

centimetres

c.

or

centimetres

d.

or

centimetres

e.

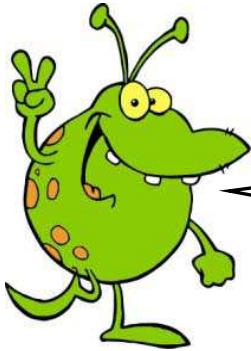

or

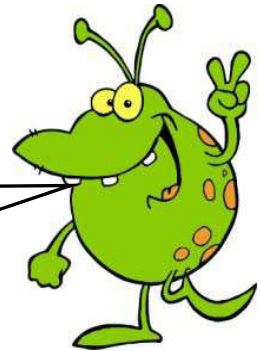

centimetres

Using a ruler

Starting at the dot use your ruler to draw lines the lengths shown.

Remember to measure from 0. This will probably not be from the edge of the ruler.

1. 3 centimetres. ●

1. 5 centimetres. ●

1. 7 centimetres. ●

1. 4 centimetres. ●

1. 6 centimetres. ●

Answers

Please note: because of printers scaling the lengths shown cannot be guaranteed to be accurate.
Because of this we usually only refer to approximate lengths.

Page 2

- a. about 2 cm b. about 4 cm c. about 8 cm d. about 1 cm
e. about 5 cm f. about 3 cm g. about 4 cm

Page 3

Longest lines are about:

- a. 3 cm b. 4 cm c. 3 cm d. 5 cm e. 3 cm
