

# RAINFOREST ANIMALS

## POISONOUS DART FROG

One of the most brightly colored animals on the planet, the poison dart frog uses its color to warn predators of the toxic venom the lies within its skin. Indigenous cultures often use this frog's poison to coat the tip of blow darts used for hunting.

# SLOTHS

SLOTHS SPEND AROUND 15 TO 20 HOURS A DAY SLEEPING

sloths travel 41 yards per day—less than half the length of a football field!

Sloths munch on leaves, twigs and buds.

Sloths—the sluggish tree-dwellers of Central and South America—spend their lives in the tropical
