Science Challenge

Towers and Structures Challenge

- Using paper as the main material, try to build the best structure you can.
- You will need to make sure you plan the structure of your building first before starting.
- When you have finished, test how strong your structure is by putting your favourite teddy bear, doll or action figure at the top, without it falling.
- Take a photo and share it with us on Seesaw!

You will need - paper, tape and scissors.

Decide on the type of structure you are going to build - house, tower, castle etc

Now to plan and build your structure. **Hint** - make it strong and have steady foundations.

Test

When you have finished, test how strong your structure is by putting your favourite teddy, doll or action figure at the top, without it falling down.

Send photos to your teacher 

to send us pictures of your fantastic art on Seesaw.
